OFFICE OF THE PRESIDENT

February 16, 1962

Mr. John Davison
Yale Broadcasting Company
242-A Yale Station
New Haven, Connecticut

Dear John:

I have a telegram from William Malone, our Engineering Manager and Convention Program Director in Cambridge, indicating that you are interested in contacting Sarnoff, Jr., Murrow, or Hagerty for the job of keynote speaker at the Convention on April 7th.

Very recently I have found that our efforts in Washington to secure Minow, Engar, and others, have failed, thus it would seem most appropriate and good of you to follow thru on these gentlemen you have suggested as best you can at this rather late date.

All other things but this one seem to be progressing well, so it would be good if you are able to come through with an acceptance from some suitable appropriate and inviting a person.

Best regards,

Richard H. Crompton
President - Treasurer
